DOCUMENT RESUME

ED 069 251 HE 003 578

TITLE	Survey of Citizenship of Graduate Students Enrolled in Master's and Doctoral Degree Programmes at Ontario Universities in 1969-70 (With Comparative Statistics for 1968-69).
INSTITUTION	Committee of Presidents of Universities of Ontario, Toronto.
PUB DATE	11 May 70
NOTE	25p.
EDRS PRICE	MF-$0.65 HC-$3.29
DESCRIPTORS	*Foreign Students; *Graduate Students; *Higher Education; *International Education; *Student Characteristics

ABSTRACT

Presented in this document is a series of tables dealing with the nationality of graduate students attending universities in Ontario. The data are arranged by: (1) citizenship of graduate students of all disciplines for all universities; (2) citizenship of doctoral students of all disciplines for all universities; (3) citizenship of master's students of all disciplines for all universities; (4) country of origin of non-Canadian graduate students; (5) summary of gross citizenship distribution of graduate students by discipline; (6) gross citizenship distribution of graduate students by discipline; (7) citizenship of full-time and part-time doctoral students by discipline; (8) citizenship of full-time and part-time master's students by discipline; (9) gross citizenship distribution of graduate students by university; and (10) citizenship of full-time and part-time doctoral students by university; and (11) citizenship of full-time and part-time master's students by university. (HS)

ED 069251

SURVEY OF CITIZENSHIP OF GRADUATE STUDENTS ENROLLED IN MASTER'S AND DOCTORAL DEGREE PROGRAMMES AT ONTARIO UNIVERSITIES IN 1969-70 (WITH COMPARATIVE STATISTICS FOR 1968-69)

HE 003 577

Revised May 11, 1970

This is the second annual survey conducted by the Ontario Council on Graduate Studies on the citizenship of graduate students enrolled in Ontario universities. The statistical material in this report is based on returns from all fourteen member institutions of OCGS in both 1968-69 and 1969-70. Accordingly, it is possible to observe the changes from one year to the next.

The tables present three citizenship categories, Canadian, landed immigrant and foreign; with foreign being broken out by country of origin.[1/] With regard to the figures reported in the landed immigrant column a note of caution must be given. The University of Ottawa has not been able to separate out the landed immigrant students in either 1968-69 or 1969-70; these have been included with foreign students. This has also been the case with the 1969-70 figures reported by the University of Windsor. It should be mentioned at this point that whenever the term "graduate students" is used in this report it refers to the Masters and Doctoral students; special students have not been included.

In 1969-70 the total graduate enrolment increased by 2537 students or 16.9% (Table 1) to 17,573 students, of which 12,117 (69.0%) were full-time. Full-time students increased by 13.7% while part-time students increased by 24.7%.

For the total graduate student population the proportion of Canadians was up 2.5 percentage points to 68.7%. Landed immigrants increased by 3.7 percentage points to 17.1% of the total population and foreign students were down by 6.2 percentage points. Canadians and landed immigrants accounted for 85.8% of the total students, up from

1/ With the exception of Table 4, which shows country of origin of all non-Canadian students.

79.6% the previous year. The foreign student component was thus reduced from 20.4% to 14.2%. In both years the largest group of foreign students came from Asia (5.6% of total in 1969-70) with the next largest group from the U.S.A. (3.2% of total in 1969-70).

Looking at the full-time students only, Canadians accounted for 62.4%, up 3.5 percentage points and the landed immigrants for 20.3%, up 4.9 percentage points. Together these two groups comprised 82.7% of the full-time graduates, up 8.4 percentage points from 1968-69. For the part-time students the proportion of Canadians was down 1.2 percentage points to 82.6% of the total and the landed immigrants up by 1.8 percentage points. In 1969-70 Canadians and landed immigrants accounted for 92.8% of the part-time students.

The enrolment in Doctoral programmes (Table 2) increased in 1969-70 by 975 students or 21.3% to 5557, which is 31.6% of the total graduate enrolment for 1969-70. Of these Doctorals 82.9% were full-time. The proportion of Canadians amongst full-time Doctorals was up 1.9 percentage points to 52.5% and of all Doctoral students was up 1.7 percentage points to 55.7%. Landed immigrants comprised 27.6% of the full-time Doctorals in 1969-70, (up 7.0 percentage points) and 25.4% of all Doctoral students (up 5.8 percentage points). Canadians and landed immigrants in 1969-70 accounted for 80.1% of the full-time Doctorals and 81.1% of all Doctoral students. Again, the Asian students were the largest foreign group with the U.S.A. next. Of the part-time Doctorals the proportion of Canadians declined by 2.7 percentage points to 71.1%

and the landed immigrants increased slightly to 14.7% of the part-time Doctoral students. Canadians and landed immigrants comprised 85.8% of the part-time doctorals in 1969-70. Of the foreign part-time students the largest group came from the U.S.A. (almost three times as many as all other foreign combined); they were up from 4.7% of the total to 10.2%.

Masters students (Table 3) increased in 1969-70 by 14.9% to 12,016; 62.5% of them were full-time. Of these full-time Masters students Canadians accounted for 68.5% (up 4.8 percentage points), landed immigrants for 15.8% (up 3.3 percentage points) and both for 84.3% (up 8.1 percentage points). Of the part-time Masters students 85.1% are presently Canadian (down 0.6 percentage points), 9.2% are landed immigrants (up 1.9 percentage points) and both account for 94.3% of the part-time (up 1.3 percentage points). The figures for all Masters students are 74.7% Canadian (up 3.2 percentage points), 13.3% landed immigrants (up 2.7 percentage points) totalling 88.0% (up 5.9 percentage points). In all cases the largest group of foreign students is from Asia.

Summarizing the first three tables, the proportion of Canadians in the graduate student population has increased slightly, while a substantial increase was noted in the landed immigrant proportion.

Table 4 shows the country of origin of all non-Canadian graduate students (landed immigrant as well as foreign). The largest group of landed immigrants in 1969-70 comes from the United Kingdom with 27.3% of the landed immigrant population (down from 32.4% in 1968-69). Asia has the second largest representation (23.7%) followed by

the U.S.A. (22.1%). Both these groups showed a slight increase in proportions over the previous year, 3.1 percentage points and 1.3 percentage points respectively. The largest group of foreign students presently comes from Asia and accounts for 39.6% of the foreign students (down 1.5 percentage points from 1968-69). The U.S.A. is next with 22.6% and then the United Kingdom with 11.8% When both landed immigrants and foreign students are considered together the largest group is from Asia with 30.9% of the total in 1969-70, down from 33.0% in 1968-69. The U.S.A. accounts for 22.4% and the United Kingdom for 20.3% of the non-Canadian graduate students. Europeans account for 11.8% of the non-Canadians but have shown the greatest increase from 1968-69 (2.7 percentage points). In absolute terms, all groups of landed immigrants showed substantial increases, while all groups but two of foreign students showed decreases.

Tables 5 to 10 give classifications by citizenship and discipline.* Business and Education show the highest Canadian content in 1969-70 (88.5% and 84.5% respectively) with Engineering and the Physical and Mathematical Sciences showing the lowest Canadian content (48.1% and 54.8% respectively). The full-time Doctoral students have a much lower Canadian content than the full-time Masters for all disciplines. The proportion of Canadians of the part-time Doctoral and Masters are closer but many of the disciplines show a lower Canadian content for the Doctorals. All of the disciplines with the exception of Education and Business show a marked increase in the proportion of landed immigrants.

The full-time Doctoral students show a much higher proportion of landed immigrants than the full-time Masters for most of the disciplines. Engineering has the highest percentage of landed immigrants (26.2%) followed by the Physical and Mathematical Sciences (22.6%) and the Life and Health Sciences (22.4%). The proportion of foreign students is lower than in 1968-69 for all disciplines and, with the exception of Education and Business, the actual number of foreign students in each discipline is lower.

Tables 11 to 15 show classifications by citizenship and university. There are wide variations in the proportion of Canadians reported both among the universities and from 1968-69 to 1969-70. It is difficult to draw conclusions from the data reported by the emerging institutions because their small graduate populations are subject to great fluctuations by the addition of a few graduate students. The majority of the established universities show a small increase in the proportion of Canadian graduate students and all show a substantial increase in the proportion of landed immigrants. All of the established universities show a decline in the proportion of foreign students. Ottawa is the only established university to have a substantial increase in the actual number of foreign students , but it should be remembered that they have not been able to break out landed immigrants separately.

*Twelve discipline categories have been used this year (eight were used in the previous study). An appended list of discipline areas indicates the classification of individual disciplines into these broader categories.

LIST OF DISCIPLINE AREAS

HUMANITIES (Language and Literature)

1 Classics
2 Classical Studies
3 Comparative Literature
4 East Asian Studies
5 English
6 French
7 German
8 Italian and Hispanic Studies
9 Islamic Studies
10 Latin and Greek
11 Linguistics
12 Medieval Studies
13 Modern Languages
14 Modern Languages and Linguistics
15 Near Eastern Studies
16 Romance Languages
17 Russian
18 Slavic Studies
19 Spanish
20 Spanish and Italian

HUMANITIES (History, Philosophy and the Arts)

30 Ancient History
31 Drama
32 Fine Art
33 History
34 History of Art
35 History of Religions
36 History and Philosophy of Science and Technology
37 Music
38 Philosophy
39 Religious Studies
40 Theology

SOCIAL SCIENCES (General)

50 Agricultural Economics
51 Anthropology
52 Culture and Technology
53 Economics
54 International Affairs
55 Law
56 Political Economy
57 Political Science
58 Political Studies
59 Psychology
60 Social Work
61 Sociology

SOCIAL SCIENCES (Regional, Geographic and Planning)

70 Canadian Studies
71 Geography
72 Geography/Planning
73 Planning
74 Russian and East European Studies
75 Urban and Regional Planning

PHYSICAL SCIENCES

80 Aerospace Studies
81 Architecture
82 Astronomy
83 Chemistry
84 Experimental Space Studies
85 Geological Science
86 Geology
87 Geophysics
88 Landscape Architecture
89 Materials Science
90 Metallurgy and Materials Science
91 Physics
92 Soil Science
93 Textiles, Clothing and Design

MATHEMATICAL SCIENCES

100 Applied Mathematics
101 Computer Science
102 Mathematics
103 Mathematics and Statistics

ENGINEERING

110 Agricultural Engineering
111 Chemical Engineering
112 Civil Engineering
113 Electrical Engineering
114 Mechanical Engineering
115 Engineering
116 Engineering Materials

LIFE SCIENCES

120 Animal Studies
121 Apiculture
122 Biochemistry
123 Biology
124 Biophysics
125 Botany
126 Crop Science
127 Forestry
128 Horticulture
129 Poultry Science
130 Zoology

HEALTH SCIENCES

140 Anatomy
141 Avian Pathology, Wild Life Diseases and Virology
142 Bacteriology
143 Bio-Medical Electronics
144 Clinical Studies
145 Dentistry
146 Epidemiology
147 Histology and Embryology
148 Hygiene
149 Medical Biophysics
150 Medicine
151 Microbiology
152 Microbiology and Immunology
153 Paediatrics
154 Pathology
155 Pathological Chemistry
156 Pharmacology
157 Pharmacy
158 Physiology
159 Physiology and Pharmacology
160 Radiology
161 Surgery
162 Veterinary Bacteriology

EDUCATION

170 Education
171 Educational Theory
172 Extension Education

BUSINESS

180 Business
181 Business Administration
182 Public Administration

OTHER

190 Food Science
191 Foods and Nutrition
192 Home Management
193 Hospital Administration
194 Library School
195 Library Science
196 Nursing
197 Nutrition
198 Physical Education
199 Physical & Health Education
